## General

When a Customer subscribes to the service, they agree to pay a monthly subscription of \$99 every month. Every sale of a monthly Customer subscription generates a single direct commission of \$50 that is paid to the Affiliate that introduced that Customer.

If a Customer introduces another Customer or an Affiliate, the referrer is automatically upgraded to Affiliate and their monthly subscription will be charged at the Affiliate rate. The first Direct Commission received by the referrer as an Affiliate is used to pay for the automatic upgrade to Affiliate.

When an Affiliate subscribes to the service, they agree to pay a monthly subscription of \$149 every month. Every sale of a monthly Affiliate subscription generates 8 different and immediate commissions. There is 1 Direct Commission, 5 Indirect Commissions, 1 Super Affiliate Commission and 1 Pro Affiliate Commission. Commissions are paid out after the Affiliate's subscription payment has been confirmed. To receive commissions click the "Withdraw All Commissions" button on the commission page. It is a good idea to allow commissions to accumulate to avoid significant miner or network fees. (1 Click does not earn from network or miner fees.)
